Course Description

Q-Logic 3 Technical Programming 0.3 CEU/3.0 CEC
The Attendee will be introduced to the new Q-Logic 3 electronics and hand-held programmer. They will be using hand-outs and lecture to work their way through the hand-held programmer, learning the new features as well as learning the layout of the new hand-held programmer.

Q-Logic 3: Advanced Technical Programming 0.3 CEU/3.0 CEC
The Attendee will be able to hook up a switched drive control device and be able to effectively program to the consumers needs. The Attendee will also learn how to program the new iAccess module only available on the Q-Logic 3 system. The attendee will use programming handouts to effectively program the specialty control and iAccess module.

Learning Objectives:
Q-Logic 3 Technical Programming 0.3 CEU/3.0 CEC:
1) Participants will be able to identify the difference between the Q-Logic 2 and Q-Logic 3 systems
2) Participants will be able to explain how to save the .xpa file from the system and reload the .xpa file.
3) Participants will be able to explain the change programming such as drive parameters to make it more effective for the consumer they are working with.

Q-Logic 3: Advanced Technical Programming 0.3 CEU/3.0 CEC
1) Participant will be able to identify (3) new features within the Q-Logic 3 Drive control system.
2) Participant will be able to identify (3) new specialty control programming features on the Q-Logic 3 Electronics system
3) Participant will be able to identify (3) features of the iAccess module
