# **Wheelchair Seating Reference**

### http://www.quantumrehab.com/wheelchair-cushions-and-back-cushions/

The only products which may be billed to Medicare using codes E2601-E2608, E2611-E2616, E2620, E2621, and E2622-E2625 and the only brand name products that may be billed using codes E2609 or E2617 are those products for which a written coding verification has been made by the Pricing, Data Analysis, and Coding (PDAC) contractor. A Product Classification List with products which have received a coding verification can be found on the PDAC web site. <a href="https://www.dmepdac.com/dmecsapp/">https://www.dmepdac.com/dmecsapp/</a>

Wheelchair seat and back cushion codes are all-inclusive. Use of HCPCS code K0108 or any other HCPCS code to bill separately for added components such as foam blocks, gel packs, air cells, or equivalent material is considered incorrect coding. There is no separate payment for mounting hardware for a seat or back cushion.

Seat and back cushions provided for use with a transport chair (E1037, E1038) will be denied as not reasonable and necessary. There is no separate payment for a wheelchair seat or back cushion when it is used with a roll-about chair (E1031).

There is no separate payment for a solid insert (E0992) that is used with a seat or back cushion because a solid base is included in the allowance for a wheelchair seat or back cushion.

# **General Use Cushion or Back**

E2601	General use wheelchair seat cushion, width less than 22 inches, any depth
E2602	General use wheelchair seat cushion, width 22 inches or greater, any depth
E2611	General use wheelchair back cushion, width less than 22 inches, any height, including any
	type mounting hardware
E2612	General use wheelchair back cushion, width 22 inches or greater, any height, including any
	type mounting hardware

A general use seat cushion and a general use back cushion are covered for a beneficiary who has a manual wheelchair or a power wheelchair with a sling/ solid seat/back which meets Medicare criteria.

If the beneficiary does not have a covered wheelchair, then the cushion will be denied as not reasonable and necessary.

If the beneficiary has a POV or a power wheelchair with a captain's chair seat, the cushion will be denied as not reasonable and necessary. For beneficiary's who meet the coverage criteria for a power wheelchair who do not have special skin protection or positioning needs, a power wheelchair with a captain's chair seat provides adequate support.

If a general use cushion is provided with a power wheelchair with a sling/solid seat/back instead of a captain's chair, both the wheelchair and the cushion will be denied unless one of the following criteria is met:

- 1. The cushion is provided with a power wheelchair base that is not available in a captain's chair model: codes K0839, K0840 K0843, K0860-K0864, K0890, or K0891; or
- 2. A skin protection and/or positioning seat or back cushion that meets coverage criteria is provided.

### **Skin Protection Cushion**

E2603	Skin protection wheelchair seat cushion, width less than 22 inches, any depth
E2604	Skin protection wheelchair seat cushion, width 22 inches or greater, any depth
E2622	Skin protection wheelchair seat cushion, adjustable, width less than 22 inches, any depth
E2623	Skin protection wheelchair seat cushion, adjustable, width 22 inches or greater, any depth

A skin protection seat cushion is covered for a beneficiary who meets both of the following criteria:

- 1. The beneficiary has a manual wheelchair or a power wheelchair with a sling/solid/seat/back and the beneficiary meets the Medicare coverage criteria for it; and
- 2. The beneficiary has either of the following;
  - a. Current pressure ulcer or past history of a pressure ulcer on the area in contact with the seating surface as reflected in a Group 1 ICD-10 code; or
  - b. Absent or impaired sensation in the area of contact with the seating surface or inability to carry out a functional weight shift as reflected in Group 2 ICD-10 code.

The presence of a covered diagnosis code alone is not sufficient by itself to support coverage. Medical records must support policy requirements to justify payment.

### **Group 1 ICD-10 Codes**

a. The beneficiary has a current pressure ulcer or past history of a pressure ulcer on the area in contact with the seating surface; or

L89.130	Pressure ulcer of right lower back, unstageable
L89.131	Pressure ulcer of right lower back, stage 1
L89.132	Pressure ulcer of right lower back, stage 2
L89.133	Pressure ulcer of right lower back, stage 3
L89.134	Pressure ulcer of right lower back, stage 4
L89.140	Pressure ulcer of left lower back, unstageable
L89.141	Pressure ulcer of left lower back, stage 1
L89.142	Pressure ulcer of left lower back, stage 2
L89.143	Pressure ulcer of left lower back, stage 3
L89.144	Pressure ulcer of left lower back, stage 4
L89.150	Pressure ulcer of sacral region, unstageable
L89.151	Pressure ulcer of sacral region, stage 1

### Group 2 ICD-10 Codes

b. The beneficiary has absent or impaired sensation in the area of contact with the seating surface or an inability to carry out a functional weight shift due to a diagnosis below.

B91	Sequale of poliomyelitis
E75.00	GM2 gangliosidosis, unspecified Sandhoff disease
E75.01	
E75.02	Tay-Sachs disease
E75.09	Other GM2 gangliosidosis
E75.10	Upspecified gangliosidosis
E75.11	Mucolipidosis IV
E75.19	Other glangliosidosis
E75.23	Krabbe disease
E75.25	Metachromatic leukodystrophy
E75.29	Other sphinolipidosis
E75.4	Neuronal ceroid lipofuscinosis
F84.2	Rett's syndrome
G04.1	Tropical spastic paraplegia
G04.89	Other myelitis
G10	Huntington's disease
G11.0	Congenital nonprogressive ataxia
G11.1	Early-onset cerebellar ataxia
G11.2	Late-onset cerebellar ataxia
G11.3	Cerebellar ataxia with defective DNA repair
G11.4	Hereditary spastic paraplegia
G11.8	Other hereditary ataxias
G11.9	Hereditary ataxia, unspecified
G12.0	Infantile spinal muscular atrophy, type I [Werdnig-Hoffman]
G12.1	Other inherited spinal muscular atrophy
G12.20	Motor neuron disease, unspecified
G12.21	Amyotrophic lateral sclerosis
G12.23	Primary lateral sclerosis
G12.24	Familial motor neuron disease
G12.25	Progressive spinal muscle atrophy
G12.29	Other motor neuron disease
G12.8	Other spinal muscular atrophies and related syndromes
G12.9	Spinal muscular atrophy, unspecified
G14	Postpolio syndrome
G20	Parkinson's disease
G21.4	Vascular parkinsonism
G24.1	Genetic torsion dystonia
G30.0	Alzheimer's disease with early onset
G30.1	Alzheimer's disease with late onset
G30.1 G30.8	Other Alzheimer's disease
G30.8 G30.9	
	Alzheimer's disease, unspecified
G31.81	Alpers disease

# **Positioning Seat Cushions, Backs, Accessories**

#### **Positioning Seat Cushion**

E2605	Positioning wheelchair seat cushion, width less than 22 inches, any depth
E2606	Positioning wheelchair seat cushion, width 22 inches or greater, any depth

#### **Positioning Back Cushion**

	0
E2613	Positioning wheelchair back cushion, posterior, width less than 22 inches, any height,
	including any type mounting hardware
E2614	Positioning wheelchair back cushion, posterior, width 22 inches or greater, any height,
	including any type mounting hardware
E2615	Positioning wheelchair back cushion, posterior-lateral, width less than 22 inches, any
	height, including any type mounting hardware
E2616	Positioning wheelchair back cushion, posterior-lateral, width 22 inches or greater, any
	height, including any type mounting hardware
E2617	Custom fabricated wheelchair back cushion, any size, including any type mounting
	hardware
E2620	Positioning wheelchair back cushion, planar back with lateral supports, width less than 22
	inches, any height, including any type mounting hardware
E2621	Positioning wheelchair back cushion, planar back with lateral supports, width 22 inches or
	greater, any height, including any type mounting hardware

#### **Positioning Accessories**

E0953	Wheelchair accessory, lateral thigh or knee support, any type, including fixed mounting
	hardware, each
E0955	Wheelchair accessory, headrest, cushioned, any type, including fixed mounting hardware
E0956	Wheelchair accessory, lateral trunk or hip support, any type, including fixed mounting
	hardware, each
E0957	Wheelchair accessory, medial thigh support, any type, including fixed mounting hardware,
	each
E0960	Shoulder harness/straps or chest strap, including any type mounting hardware

A positioning seat cushion, positioning back cushion and positioning accessory (E0953, E0955\*-E0957, E0960) is covered for a beneficiary who meets both of the following criteria:

- 1. The beneficiary has a manual wheelchair or a power wheelchair with a sling/solid seat/back and the beneficiary meets Medicare coverage criteria for it; and
- 2. The beneficiary has any significant postural asymmetries that are due to one a Group 2 or Group 3 diagnosis code.

The presence of a covered diagnosis code alone is not sufficient by itself to support coverage. Medical records must support policy requirements to justify payment.

Pride Mobility Products Corporation – Wheelchair Seating\_5.2018

The information contained herein is intended only as a general summary. While Pride makes every effort to update our Product Planning and Reimbursement resources as regulatory changes occur, it is recommended that suppliers contact us at <u>ppr@pridemobility.com</u> with any concerns or questions.

\* A headrest, HCPCS E0955, is also covered when a beneficiary has a covered manual tilt-in-space, manual semi of fully reclining back on a manual wheelchair, and manual fully reclining back on a power wheelchair, or power tilt and/or recline power seating system.

### Group 2 ICD-10 Codes

The beneficiary has significant postural asymmetries due to a diagnosis below; or

B91	Sequelae of poliomyelitis
E75.00	GM2 gangliosidosis, unspecified
E75.00	Sandhoff disease
E75.02	Tay-Sachs disease
E75.09	Other GM2 gangliosidosis
E75.10	Unspecified gangliosidosis
E75.10 E75.11	Mucolipidosis IV
E75.19	Other gangliosidosis
E75.23	Krabbe disease
E75.25	Mabbe disease
E75.25 E75.29	
E75.29 E75.4	Other sphingolipidosis Neuronal ceroid lipofuscinosis
F84.2	Rett's syndrome
G04.1	Tropical spastic paraplegia
G04.89	Other myelitis
G10	Huntington's disease
G11.0	Congenital nonprogressive ataxia
G11.1	Early-onset cerebellar ataxia
G11.2	Late-onset cerebellar ataxia
G11.3	Cerebellar ataxia with defective DNA repair
G11.4	Hereditary spastic paraplegia
G11.8	Other hereditary ataxias
G11.9	Hereditary ataxia, unspecified
G12.0	Infantile spinal muscular atrophy, type I [Werdnig-Hoffman]
G12.1	Other inherited spinal muscular atrophy
G12.20	Motor neuron disease, unspecified
G12.21	Amyotrophic lateral sclerosis
G12.23	Primary lateral sclerosis
G12.24	Familial motor neuron disease
G12.25	Progressive spinal muscle atrophy
G12.29	Other motor neuron disease
G12.8	Other spinal muscular atrophies and related syndromes
G12.9	Spinal muscular atrophy, unspecified
G14	Postpolio syndrome
G20	Parkinson's disease
G21.4	Vascular parkinsonism
G24.1	Genetic torsion dystonia

# **Skin Protection & Positioning**

E2607	Skin protection and positioning wheelchair seat cushion, width less than 22 inches, any depth
E2608	Skin protection and positioning wheelchair seat cushion, width 22 inches or greater, any depth
E2624	Skin protection and positioning wheelchair seat cushion, adjustable, width less than 22 inches, any depth
E2625	Skin protection and positioning wheelchair seat cushion, adjustable, width 22 inches, any depth

A combination skin protection and positioning cushion is covered for a beneficiary who meet the criteria for <u>both</u> a skin protection seat cushion and a positioning seat cushion.

Criteria (a), (b), or (c) must be met AND criteria (d) must be met.

- a. If there is a past history or current pressure ulcer in the area of contact with the seating surface
   Group 1 ICD-10 code; or
- b. If there is absent or impaired sensation in the area of contact with the seating surface due to a Group 2 ICD-10 covered diagnosis for skin protection cushions; or
- c. If there is an inability to carry out a functional weight shift due to one of the diagnoses listed as a Group 2 ICD-10 covered diagnosis for skin protection cushions; <u>and</u>
- d. If the beneficiary has significant postural asymmetries due to one of the diagnoses listed as a Group 3 ICD-10 covered diagnosis for positioning cushions.

The presence of a covered diagnosis code alone is not sufficient by itself to support coverage. Medical records must support policy requirements to justify payment.

# **Custom Fabricated Seat and Back Cushions**

E2609	Custom fabricated wheelchair seat cushion, any size
E2617	Custom fabricated wheelchair back cushion, any size, including any type mounting hardware

For a custom fabricated seat or back cushion criteria (a) must be met and criterion (b), (c), or (d) must be met:

- a. For E2609 or E2617, there is a comprehensive written evaluation by a licensed/certified medical professional such as a PT or OT (who has no financial relationship with the supplier) which explains why a prefabricated seating system is not sufficient to meet the beneficiary's seating and positioning needs; and
- b. For E2609, there is a past history of or current pressure ulcer in the area of contact with the seating surface; or
- c. For E2609, there is absent or impaired sensation in the area in contact with the seating surface or an inability to carry out a functional weight shift due to one of the diagnoses listed as a covered diagnosis for skin protection cushions; or
- d. For E2609 or E2617, the beneficiary has significant postural asymmetries due to one of the diagnoses listed as a covered diagnosis for positioning cushions.

The presence of a covered diagnosis code alone is not sufficient by itself to support coverage. Medical records must support policy requirements to justify payment.
