Course Description

Q-Logic 3 Technical Programming 0.3 CEU/3.0 CEC

The Attendee will be introduced to the new Q-Logic 3 electronics and hand-held programmer. They will be using hand-outs and lecture to work their way through the hand-held programmer, learning the new features as well as learning the layout of the new hand-held programmer.

Q-Logic 3: Advanced Technical Programming 0.3 CEU/3.0 CEC

The Attendee will be able to hook up a switched drive control device and be able to effectively program to the consumers needs. The Attendee will also learn how to program the new iAccess module only available on the Q-Logic 3 system. The attendee will use programming handouts to effectively program the specialty control and iAccess module.

Learning Objectives:

Q-Logic 3 Technical Programming 0.3 CEU/3.0 CEC:

- 1) Participants will be able to identify the difference between the Q-Logic 2 and Q-Logic 3 systems
- 2) Participants will be able to explain how to save the .xpa file from the system and reload the .xpa file.
- 3) Participants will be able to explain the change programming such as drive parameters to make it more effective for the consumer they are working with.

Q-Logic 3: Advanced Technical Programming 0.3 CEU/3.0 CEC

- 1) Participant will be able to identify (3) new features within the Q-Logic 3 Drive control system.
- 2) Participant will be able to identify (3) new specialty control programming features on the Q-Logic 3 Electronics system
- 3) Participant will be able to identify (3) features of the iAccess module
